- CPCS Training
- CPCS Trained workforce
- Simulated lifts can be carried out to determine detailed point loading information

MERLO SPECIALISTS

GT Lifting and Merlo stretches back over 20 years.

We have been working with pioneering inventors of equipment such as the ROTO Telehandler (Merlo), for over 20 years and they continue to be our number one partner throughout the GT Lifting business. Working closely together over all aspects of product development, and commercial agreements – GT Lifting Solutions Limited is proud to be Merlo's number one customer within the UK.

ROTO Telehandler

The Merlo Roto, is equipped with the latest emission engines, while offering the best mechanical, hydraulic, and electronic performance making it the number one choice within the hire and sales industry. Ranging from 18m – 35m and lift capacities of 4t – 7t, GT Lifting and Merlo are sure to have the right machine for you.

Heavy Lift Telehandler

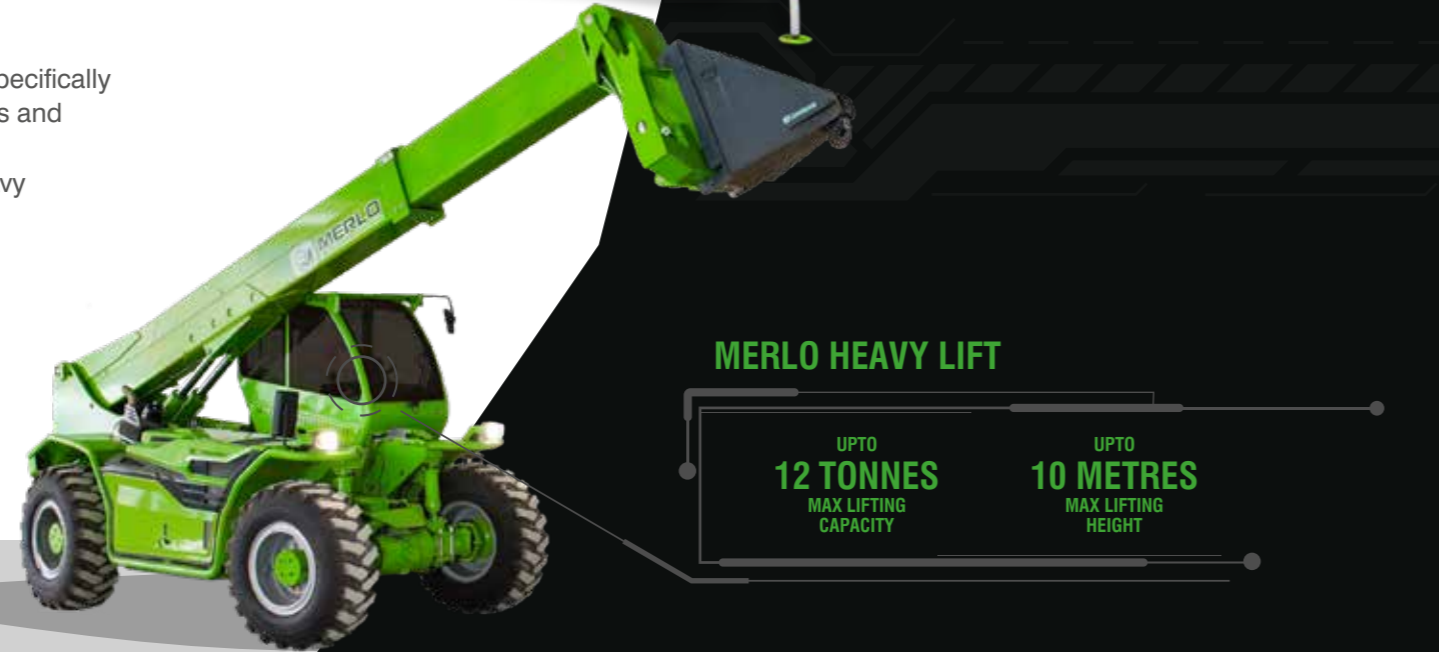

Ranging from 6t – 12t, these machines have been specifically designed to enhance operational performance levels and to ensure highly effective solutions in all heavy-duty handling operations. Merlo's high performance, heavy lift telehandlers can lift up to 12 tonnes and remain consistently popular with our customers.

GT Lifting are proud to run the UK's **LARGEST** fleet of Merlo ROTO & Heavy Lift Telehandlers.

MAGNI SPECIALISTS

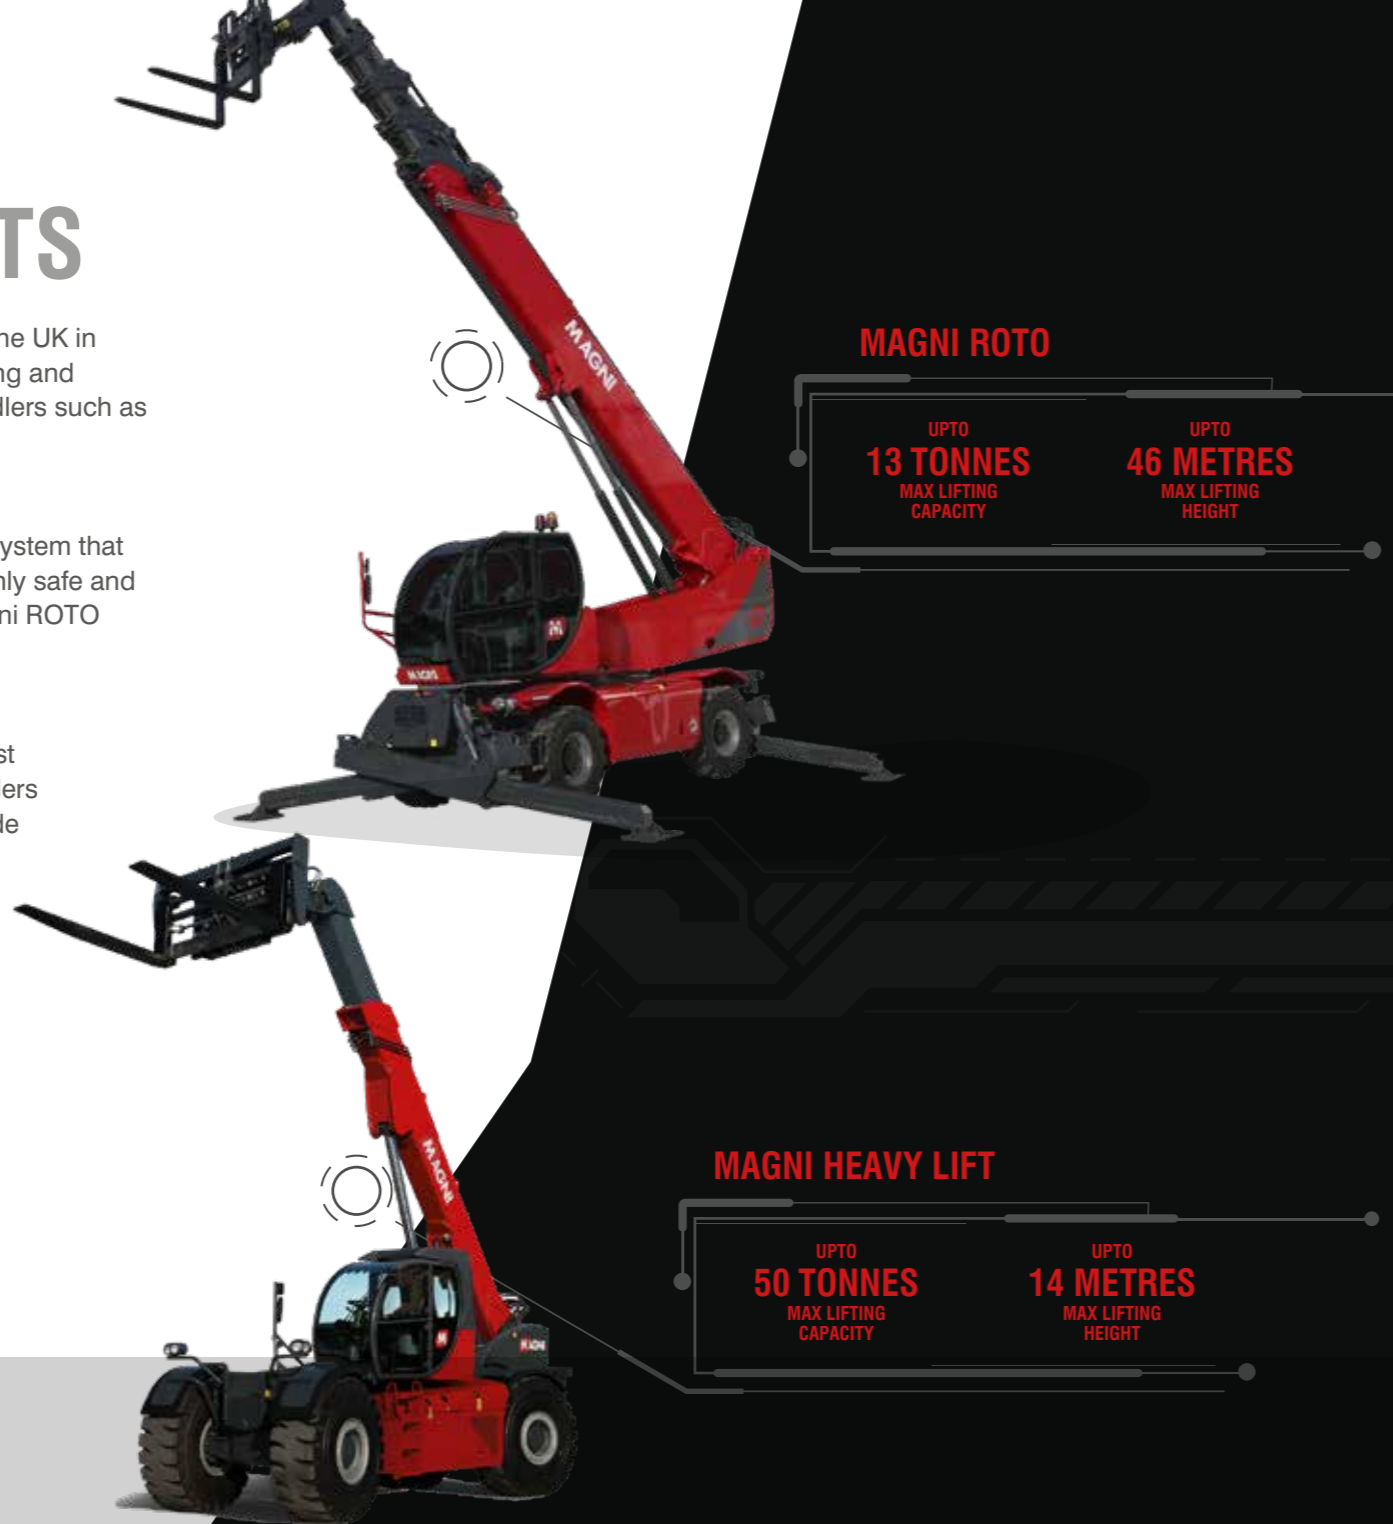

The revolutionary Magni ROTO range was introduced to the UK in 2014, and has become a firm favourite on more demanding and technical projects; offering unrivalled high reach Telehandlers such as the 6t/35m, 6t/39m & the 6t/46m.

ROTO Telehandler

Magni ROTO Telehandlers have a patented load control system that detects the risks of overload during use making them highly safe and reliable. We are proud to run the UK's largest fleet of Magni ROTO Telehandlers; Ranging from 25m – 46m.

Heavy Lift Telehandler

The Magni Heavy Lift range are suitable for use in the most demanding of environments. Heavy-duty telescopic handlers have a lift capacity of between 10 and 45 tonnes, alongside excellent manoeuvring speed and stability, making them ideal for manufacturing, ports, and mining.

MANITOU SPECIALISTS

Manitou Roto Telehandler

Manitou Roto Telehandlers are versatile machines that are designed to lift and move heavy loads in construction, agriculture, and industrial settings. These telehandlers are equipped with a unique rotating telescopic boom that provides a high level of flexibility and precision when lifting and placing loads. Manitou Roto Telehandlers are also known for their impressive reach and lifting capacity, making them ideal for working on large-scale construction projects or handling heavy materials in manufacturing facilities. Additionally, these machines are designed to be highly maneuverable, allowing operators to easily navigate tight spaces and rough terrain.

Overall, Manitou Roto Telehandlers are a reliable and efficient solution for any task that requires heavy lifting and precise maneuvering.

STANDARD TELEHANDLERS

Merlo telehandlers guarantee maximum movement and precision, thanks to the hydrostatic transmission, which ensures millimetric variations in the machine's movements and load's positioning. Merlo telescopic handlers are compact and lightweight to reduce manoeuvring space and impact on the ground. Merlo telescopic handlers offer the best visibility on the market, ensuring faster and safer operations.

The eWorker has been designed to completely reduce noise levels and polluting emissions, increase manoeuvrability in confined spaces and drastically reduce operating costs compared to similar models equipped with heat engines powered by diesel fuel.

ATTACHMENTS

No matter what project you're working on, we have the best attachment for the task at hand. We run fully manufacturer-backed and approved attachments, which work in unison with our machines to offer the operator real working load charts while maintaining the highest level of safety. GT Lifting Solutions are proud to be the UK's largest supplier of attachments for both Merlo & Magni telehandlers.

We have your attachment covered

Hydraulic Winches, Lifting Hooks, Reduced Height Crane Booms, Fly jibs, Extra wide carriages, baskets and many more.

WE HAVE THE RIGHT HANDLER FOR THE RIGHT JOB

SERVICE BACK UP

Our reputation for providing high quality lifting solutions across the UK is reinforced by our excellent customer maintenance and support service. With over 35 years' industry experience, we have the knowledge necessary to recommend the most suitable equipment for your project. Our extensive fleet of Rotating and Heavy Lift Telehandlers offer safe, reliable and cost effective Solutions for any project.

THE UK'S LEADING
HIRE AND SALES
SPECIALISTS OF
ROTO & HEAVY LIFT
TELEHANDLERS

GT Lifting takes great pride in being the foremost supplier of used ROTO, Heavy Lift, and Standard Telehandler equipment in the UK, with an average of 150 units sold per year. Our products are available for nationwide delivery and international export, and we are committed to providing top-quality machinery at the most competitive prices.

CONTRACT LIFTING & CONSTRUCTION CONSULTANCY SERVICES

At GT Lifting, we understand that every construction project is unique, and we take the time to listen to your requirements and objectives to deliver a customized solution that meets your needs. Our team of experts has extensive experience in the construction industry, and we work closely with our customers to ensure that all legal obligations are fulfilled.

Whether you choose to have a Contract Lift or carry out the work yourself, our consultants are on hand to offer guidance and support throughout the project. We are committed to providing the highest level of service, and our dedicated spare parts department can source and supply any necessary equipment to ensure the success of your project.

Moreover, we can provide CPCS-trained operatives, including appointed person lift supervisors, slinger signallers, and operators, who are fully qualified and equipped to handle the most complex lifting operations. We take pride in our commitment to safety, and we make sure that all our equipment and personnel comply with the latest industry regulations and standards.

YOUR LIFT IS IN SAFE HANDS

PARTS AND SERVICE

GT Lifting takes pride in being the foremost supplier of spare parts and attachments for Manitou, Merlo, and Magni brands in the UK, with the largest inventory of parts available. Our commitment to customer satisfaction ensures that your orders are processed with remarkable speed, and our specialized spare parts department can arrange fast nationwide delivery, so you can have your machine up and running in no time.

KEEPING COSTS LOW

GT Lifting fully understands the need to keep running costs of your machine under control.

GENUINE PARTS

GT Lifting know that the use of genuine parts will significantly increase the residual value of your machine, and reduce the amount of down time you have.
